

Stay Beside Me

Future of Forestry

When my broken world caves in
And the darkness covers over
With a love, love, love that heals

You come, You make us one
So, Jesus, stay with my heart, stay beside me
You are hope for my soul, You complete me
You make us one
You make us one
When Your tenderness surrounds
And Your gentle whisper finds me
With a love, love, love that fills
You come, You make us one
When the beautiful unfolds
And my longing touches heaven
With a love, love, love that fills
You come, You make us one
You are love, You are grace
You are kindness and compassion
You are love, You are grace
You are God
