

# Young Man Follow

## Future of Forestry

These are days returning  
We will call in call out for safer as well  
We make the changes

We were waiting for 6 days  
For the prophets to command to the world  
We make the changes

An through the days we're kind of losing the roots  
Yesterday fell into an age ago  
We are changing

And the friends who won't tell us  
Became the friends that forced us all to call  
We..

The time has come  
Old man calling  
So be slow  
Young man follow

The time has come  
Old man calling  
So be slow  
Young man follow
