

Young Man Follow

Future of Forestry

These are days returning
We will call in call out for safer as well
We make the changes

We were waiting for 6 days
For the prophets to command to the world
We make the changes

And through the days we're kind of losing the roots
Yesterday fell into an age ago
We are changing

And the friends who won't tell us
Became the friends that forced us all to call
We..

The time has come
Old man calling
So be slow
Young man follow

The time has come
Old man calling
So be slow
Young man follow
