## Future of the Left

place our feathers over our ears  
now we know what the cost is  
hurry your children out of the rain  
and we'll compare psychosis  
bury your bodies close to the light  
bury your bodies close to the light  
bury your bodies close to the light  
bury your bodies

c'mon c'mon choose a franchise  
c'mon c'mon team : seed  
take what you wanted and leave what you need

tape these moments over our lives  
now we know what the point is  
hide our manners under our eyes  
and we'll confuse genetics  
bury your bodies close to the light  
bury your bodies close to the light  
bury your bodies close to the light  
bury your bodies

c'mon c'mon choose a franchise  
c'mon c'mon team : seed  
take what you wanted and leave what you need
