Told the bad guy he's supposed to get the good girl  
Either way it go, either way it go

So you wanna fall for the bad guy?  
So you wanna fall, get mad high?  
Confess your love for me, testify  
Anytime I'm with you, gotta testify  
Anything we go through is a test of times  
Can you be the one who love me all the time?  
We not doing good, you can see the signs  
Can you do the crime like it's Bonnie and Clyde?

I'm giving you my testimony line for line  
Or given you the best of is wrong or right  
Somebody tell the kids they need to calm it down  
I wanna hear your heart pump pound for pound  
Show me everything I need to see on my blind side  
Told me you gon' be there for the love of a real boy  
I just wanna be there for my daughters, they need me  
I just wanna be there for the game, then leave it  
Carmelos, Irwing, gettin' no z, z's  
Connoisseurs of purp, gotta give 'em a repeat  
Turbo sex in session in a Porsche on a one way  
Amigo down in Texas, we gon' get us some Grande  
Cherish every minute, every second we vibe, baby  
I wanna be covered and when I say you my lady  
I wanna be arrogant when I say you my lady  
I know I embarrass you, I feel really bad lady

So you wanna fall for the bad guy?  
So you wanna fall, get mad high?  
Confess your love for me, testify  
Anytime I'm with you, gotta testify  
Anything we go through is a test of times  
Can you be the one, love me all the time?  
We not doing good, you can see the signs  
Can you do the crime like it's Bonnie and Clyde?

All the turbulence got you mad curious  
I could've been broad, I made juug again  
Parking lot, dealership, I'm in to win  
We can't fake them flaws, we can't do pretend  
Can you keep it solid and don't ever bend?  
We gon' need colossal, we gon' need colossal  
Hold me down, down, down like a real shawty  
We conversin' back and forth like we real partners  
Spirits knew we burning through the turmoil  
I try my best to treasure, give a little more  
I know you need my time, girls this wallet comin'  
I know you seen the wave comin' then you start runnin'  
Don't be afraid, I'm a guard you with my life  
If you listen to these blogs, they gon' tell you you ain't right  
Listen to your heart and we gon' ride for life  
Shawty on the squad, she gon' ride for life

So you wanna fall for the bad guy?  
So you wanna fall, get mad high?

Confess your love for me, testify  
Anytime I'm with you, gotta testify  
Anything we go through is a test of times  
Can you be the one, love me all the time?  
We not doing good, you can see the signs  
Can you do the crime like it's Bonnie and Clyde?
