

# Don't Let Me GO

G-Eazy

If we shall dance we shall dance for the night  
I wish for love but sweet love takes her time  
Hand on my heartily just to the night  
Every star waits for the darkness to shine  
Why do I cry when the tears never dry  
Why do I drown when I look through your eyes  
Love is the morning that succeeds the night  
I was gone by the first sign of the light

When it's dark out  
I search for love but don't find it  
Just sex n drugs but don't mind it  
Because nothing's real I'm reminded  
And  
I Do suppose  
Ignorance is bliss truth be told  
They say go smash these groupie hoes  
N Spend money on some newer clothes  
N put poison up through your nose  
Well  
Eventually everything fades  
Even the brightest of Colors turn greys  
Highs comes down But the pain still stays  
Even the longest of nights turn days  
Then  
Wake up and it's over  
Love to escape cuz I hate being sober  
& you and I we never had closure  
We just knew when it was over

Don't let me go  
Don't let me go  
Don't let me go

Troubled mind of an Artist  
But the star comes alive in the darkness  
Late nights Lower east side apartments  
But the night is impossible to Harness  
Soon as comes it Departs us  
Couldn't stay & love you so I became Heartless  
Lost track of our long term targets  
Live n Die young leave a beautiful carcass  
Thinkin when we just had met  
Realizing now that it just wasn't meant  
But how would we know If the time wasn't spent?  
If only we could live where the sun doesn't set  
Somewhere it's always light out and happy  
You and I were like a Sid vicious and Nancy  
I mean it was bound to be tragic its  
No way this ever coulda lasted

Don't let me go  
Don't let me go  
Don't let me go
