G-Eazy

Following the stardom wherever we be

And that means you gets no money from me  
Tryna chase after the fame you're a groupie  
You don't even know my real name you're a groupie  
Where were you before I came up? you're a groupie  
Please come on step your game up, you're a groupie

This club is getting crazy I swear I'm about to leave soon  
Groupies finna make it to the VIP soon  
Some new lock we'll need soon  
They damn near pushing breaking down the door to the green room  
Security where you at? we need assistance  
30 gold diggers and they blocking off the entrance  
Tryna catch a glimpse like I swear their sixth sense is  
Always know where we finna be and these bitches are crazy  
Die hard full of ambition  
A salvation army couldn't stop their mission  
With 007 precision they be on us  
And they ain't giving up until the mission is accomplished  
Never work alone now, always work with an accomplice  
Got they co-workers with them pros never novice  
But on the real tip if I'm honest  
Man these groupies work so damn hard I'm astonished

She'll do anything for me if I tell her do chores  
Take your clothes off mommy go and lose yours  
Told them straight up we don't like loose whores  
But these bops keep sweating me like loose pours  
And no lie it's really that deep  
Tryna get backstage trying to creep  
Kicking till they try to find a plot to get in  
Yelling at the bouncer talking 'bout "I know him"  
(No you don't) Some groupies get bold and wanna chase after me  
Some groupies get shy and keep staring at me  
Some groupies go bad but won't say it to me  
"I don't see the big deal he's still Gerald to me"  
Either way a groupie is a groupie  
Acting like Lucy off of Charlie Brown but I'm more Snoopy  
I'mma dog, ain't trickin off a dollar for these rappers  
It makes no difference cause nothing's gonna stop her
