

Trenches

Gabe Bondoc

[Verse 1:]

Girl tell me what, we're fighting for,
I wanna hear it coming from you baby
This field of battle, this aimless war,
I'm dodging bullets waiting in the trenches,
This isn't what i signed up for,
I don't know how to change where happened,
Who's keeping track, who's keeping score,
I don't think anyone is counting the burns
There's no harm in dropping arms,
I won't fire if you don't

[Chorus:]

There's no need to fight, to prove your right [2x]
There's no need to fight, you know I'm on your side (your side)
There's no need to fight, to prove your right [2x]
There's no need to fight, you know I'm on your side (your side)

[Verse 2:]

We're treading lightly, this field of mines,
We got to keep an eye on where we're going
Let's hold it steady, we'll walk the line
Girl if we stick together we'll survive
I won't keep secrets, don't tell me lies
There ain't a thing that's gonna come between us
I know you're ready, and so am I

Come and take my hand yenko you'll feel high
There's no harm in dropping arms, I won't fire if you don't.

[Chorus:]

There's no need to fight, to prove your right [2x]
There's no need to fight, you know I'm on your side (your side)
There's no need to fight, to prove your right [2x]
There's no need to fight, you know I'm on your side (your side)

[Bridge:]

You'll do no more harm, I refuse not to defuse this
Gotta be strong, drop arms, gotta stay calm,
Gotta be strong, drop arms, gotta stay calm,
You'll do no more harm. ohh.

[GUITAR SOLO]

[Chorus:]

There's no need to fight, to prove your right [2x]
There's no need to fight, you know I'm on your side (your side)
There's no need to fight, to prove your right [2x]
There's no need to fight, you know I'm on your side (your side)
