

# Unpack

Gabe Bondoc

I close my eyes and I think I'm seeing what you see  
Night skies, bright lights, and moon beams  
Something inside my heart said we wished on the very same star  
Hey love  
I smell the air that is swirling all around you  
And though I'm thanking the Lord that I found you  
I have to say it's a difficult time, dealing with time

Take my love with you in a duffle bag, in a duffle bag suga  
Take my love with you, I don't need it back  
I know you have all you need  
But because you like me  
I gonna wait for you to come back home and unpack

I hope the water is warm wherever you are  
I hope the weather is calm and there are no storms  
It's a little bit strange, knowing you're so far away  
Hey love  
On one hand I know I just have to go with it  
But the other hand just wants your hand holding it  
I look at pictures, love I'm missing you  
Wondering what else I can do

Take my love with you in a duffle bag, in a duffle bag suga  
Take my love with you, I don't need it back  
I know you have all you need  
But because you like me  
I gonna wait for you to come back home and unpack

Take your time, I don't intend on rushing you  
Go have your fun and do the things you love to do  
And though I worry, I know God is watching you  
That's my peace of mind  
When you're ready, I'm ready love with open arms  
Just close your eyes and I can be wherever you are  
Wherever you are  
But until then☐

Take my love with you in a duffle bag, in a duffle bag suga  
Take my love with you, I don't need it back  
I know you have all you need  
But because you like me  
I gonna wait for you to come back home and unpack
