

Waiting

Gabe Bondoc

In only one occasion
I try to speak to your heart
But in a game like this one
Babe, I only get one start

And I know I need my finish
I'm gonna wait til it's time
How many times do you have
To meet the wrong guy
To know that I'm on your side

So I keep waiting
Hiding my scrading
Til your love starts
Changing baby lookin for somebody
Like me to love
Cause in difference shouldn't
Spark your interest
They don't want your mind
Like rain and spring time
Like I do, like I do

I wanna tell you so badly
I wanna quit and give in
But hypothetical questions
They pose awkward situations
None of the fellows that said things
They never meant them at all
I just wanna be there baby
Like on-call
Not that you need me at all

So I keep waiting
Hiding my scrading
Til your love starts
Changing baby lookin for somebody
Like me to love
Cause in difference shouldn't
Spark your interest
They don't want your mind
Like rain and spring time
Like I do

It's not about sweet talk baby
It's not about superficiality
It's not about me, sweet lady
It's all about you
And what you wanna do

If you wanna wait
Then were gonna wait
I'm not gonna make mistakes
Girl I'm with you, yeah
With you, you, you

So I keep waiting
Hiding my scrading

Til your love starts
Changing baby lookin for somebody
Like me to love
Cause in difference shouldn't
Spark your interest
They don't want your mind
Like rain and spring time
Like I do, like I do
