

We Match

Gabe Bondoc

[Intro]...

We match yenno

Together watchin the fallin snow

Stayin warm by the fire, lookin out the window

Lovin everything you say and do

And tell you when and say you do

I wanna say your the one, and that my search is done.

'cause youu,

You make me feel,

That everything is goin right,

That I can go to sleep tonight

And I wait to find you here

You make me feel,

That everything is goin right

That I can go to sleep tonight

Waken to your voice, down blankets and pillows

Love the heat, the warmth, the sun

And I completely agree with that one

Dry heat, and a hung hammock between two trees

From the dimples to the smile

From your heart all the way to mine

We fit, we match, we go, I think you oughta know

Think you oughta know

You make me feel

That everything is goin right

That I can go to sleep tonight...
