

# Glue

Gabriella Cilmi

We stuck together like glue  
Through all the things that we've been through  
We stuck together through things  
That hurt me in so many ways

Might sound crazy, but  
May need a little

..

Sometimes you can't fix at all  
The service aint you  
When theres no ball with you

If I come undone again  
It wouldn't make sense to depend on you  
If I come undone  
I will never trust anything you say or do

And if I fall apart  
Once you gonna glue me back together again  
Just to temper every fix we know

And I come undone  
I will be left in pieces on the floor

We had a ...  
I saw you in a perfect ..  
We've never got this far  
And I know who we really are

Might sound crazy though  
I'm feeling uncomfortable  
Cause Im feeling ..  
About something you ..

...

Sometimes we cant fix at all  
The service aint you  
When theres no ball with you

If I come undone again  
It wouldn't make sense to depend on you  
If I come undone  
I will never trust anything you say or do

And if I fall apart  
Once you gonna glue me back together again  
Just to temper every fix we know

And if I come undone  
I will be left in pieces on the floor

We stuck together like glue  
Through all the things that we've been through

If I come undone again  
It wouldn't make sense to depend on you  
If I come undone  
I will never trust anything you say or do

And if I fall apart  
Once you gonna glue me back together again  
Just to temper every fix we know  
Every fix we know

And I come undone  
I will be left in pieces on the floor
