

# Take Me Away

Gabrielle Aplin

Take me away from the demons in my brain  
Take me out to the world  
Take me out into the day  
And let me find  
My peace of mind

I was alone  
I was taken with the tide  
But I knew that I was home  
When I looked into your eyes and said I'm done  
Just let me go

I am hollow, I am numb  
I am staring down the barrel of this gun  
I am always by myself  
In a sea of self infliction that I felt

My life is a line burning faster every time  
Happy is just a dead-end street  
I must turn around and leave once in a while  
Once in a while

I bear far more cracks  
Than the human eye can see  
Is it fair to be perplexed  
And try explain what's underneath with my success?  
'Cause there's nothing left

I am tortured by myself  
I am haunted by the fear of someone else  
I am fading, I'm a ghost  
Disconnected from the things I love the most

You've seen my best turn to the worst  
I've dragged you right down with me  
Want to confess  
But with the stress  
I'm scared you'll leave me  
Now I want you to know  
But you can take it on your own

I am hollow, I am numb  
I am staring down the barrel of this gun  
I am always by myself  
In a sea of self infliction that I felt
