

Together

Gabrielle Aplin

We fit together, together so well
But when we fall apart
There's something missing I can tell
We fit together, together so well
But when we fall apart
There's something missing I can tell

You call the sea the ocean
You say the king's alive
You live your life in motion
I like to take my time
And you don't like to talk about it
Why do we fight?
Why do we fight every night when,

We fit together, together so well
But when we fall apart
There's something missing I can tell
We fit together, together so well
But when we fall apart
There's something missing I can tell

I'm not looking for redemption
I don't wanna see the light
All I want is your attention
All I want, all I want is love
I don't think you can deny me
Let's go smoke and make a fire

You don't like to talk about it
Why do we fight?
Why do we fight every night when,

We fit together, together so well
But when we fall apart
There's something missing I can tell
We fit together, together so well
But when we fall apart
There's something missing I can tell
