Baby I've Changed

Gabrielle

Baby, baby, baby
Because

It's too many times you let me down
When I needed you you could not be found
So I picked up the pieces
And tried to mend my broken heart

Then you'd reappear always acting like
Nothing was wrong everything's just fine
Want us to get back together
Get back into my life

If I don't mind where you go
Please don't come around call this your home
'Cos I don't mind where you go
As long as you're not here

I don't mind where you go
Please don't come around or call this your home
'Cos I don't mind where you go
As long as you're not here

Baby baby baby
What did you think I'd say?
That I'd take you back again?
Oh baby I've changed

Now you say you can't believe it
How could I close the doors on you?
Could it be that you've forgotten
That you treated me so cruel?

You made your choice 'cos you stayed away
For much too long, now it's way too late
Did you want me to sit around and wait
Like I've always done?

'Cos I don't mind where you go
Please don't come around call this your home
'Cos I don't mind where you go
As long as you're not here

I don't mind where you go
Please don't come around or call this your home
'Cos I don't mind where you go
As long as you're not here

Baby baby baby
What did you think I'd say?
That I'd take you back again?
Oh baby I've changed

Baby baby baby
What did you think I'd say?
No no no no

You always got what you wanted
You knew I'd always oblige
I'd always keep the door open
Waiting for you to decide

It's too many times you've let me down
When I needed you you could not be found
So I picked up the pieces
Tried to mend my broken heart

'Cos I don't mind where you go
Please don't come around call this your home
'Cos I don't mind where you go
As long as you're not here

'I don't mind where you go
Please don't come around or call this your home
'Cos I don't mind where you go
As long as you're not here

Baby baby baby
What did you think I'd say?
That I'd take you back again
Oh baby I've changed

Oh baby I've changed
Oh baby I've changed
Oh baby I've changed
Oh baby I've changed

Because
Because
