

Have You Ever Wondered

Gabrielle

As I look back in time
It's clear for me to see
That I was meant for you
And you were meant for me
Since the day we met
Had only eyes to see one another
No one else could compete

Looking back I remember
All the fun and games
And what we've got right now
Really hasn't changed
Cos we always believed
Believed in what we had
So we did, did our best to make it last

Cos I have a love for you unbreakable
I have a love for you so strong
I have a love that's oh so deep
Cos I've loved you all along
Cos I have a love for you unbreakable
I have a love for you so strong
I have a love that's oh so deep
Cos I've loved you all along

Well have you ever wondered
how we ever came to be
Have you ever wondered why
there's still a you and me
Have you ever wondered why
I haven't turned and walked away
And why I stayed
So have you ever wondered
how we ever came to be
Have you ever wondered why
there's still a you and me
Have you ever wondered why
I haven't turned and walked away
And why I stayed

Many times I wondered
How we've kept our love alive
Cos we've come thru some things
That others don't survive
but we've always believed
Believed in what we had
So we did, did our best to make it last

Cos I have a love for you unbreakable...

So have you ever wondered how
we ever came to be...

So have you ever wondered how
we ever came to be...
