

# I Live in Hope

Gabrielle

When you came in my life  
It was on borrowed time  
This is what I understood  
So we did all we could

Made most of all our days  
We were happy in every way  
Now at night I dare not dream  
'Cos when I wake you're not with me

I guess I tried hard  
Hard to pretend  
That I didn't care  
Or even want you in the end

I live in hope that you'll come back to me  
That you'll come back to me  
I live in hope that you'll come back to me  
That you'll come back to me

Always thought that I knew  
What I would do  
When it came time for you  
To shoot on through my life

Always thought that I'd try  
Try to live my life  
Never have you on my mind  
I guess I was telling lies

But I tried hard  
Hard to pretend  
That I didn't care  
Or even want you in the end

I live in hope that you'll come back to me  
That you'll come back to me  
I live in hope that you'll come back to me  
That you'll come back to me

I guess right now I hurt inside  
Now that you're gone but you brought so much into my life  
No one can mean, mean as much to me  
So I pray each day that you'll come back to me

I live in hope that you'll come back to me  
That you'll come back to me  
I live in hope that you'll come back to me  
That you'll come back to me

I live in hope that you'll come back to me  
That you'll come back to me  
I live in hope that you'll come back to me  
That you'll come back to me

I live in hope that you'll come back to me  
That you'll come back to me

I live in hope that you'll come back to me  
That you'll come back to me

I live in hope that you'll come back to me  
That you'll come back to me  
I live in hope that you'll come back to me  
That you'll come back to me
