

# If I Could

Gabrielle

I like the way that you carry yourself  
I haven't seen that in nobody else  
When you walk in a room it's eyes on you baby  
From head to toe you look so good

Something about you shouts a command  
Could it be the way you talk or the way that you stand  
Some kind of magnet pulls me to you  
I won't resist 'cos I don't think I could

If I could have my own way, way baby  
I wouldn't need a whole day, yeah yeah  
If I could have my own way, way baby  
I know that we'd go all the way, yeah yeah

I like the way you speak to me  
Your sexy voice does things to me  
Can't help but notice the things you do baby  
I hate to say it but I'm hooked on you

Wanna get closer, closer to you  
I wanna feel your love come flowing through me  
Wanna take over, take over your heart  
Forever together never to part

If I could have my own way, way baby  
I wouldn't need a whole day, yeah yeah  
If I could have my own way, way baby  
I know that we'd go all the way, yeah yeah

If I could have my own way, way baby  
I wouldn't need a whole day, yeah yeah  
If I could have my own way, yeah baby  
I know that we'd go all the way, yeah yeah

If I could have my own way  
I wouldn't need a whole day  
If I could have my own way  
I know that we'd go all the way

If I could have my own way  
I wouldn't need a whole day  
If I could have my own way  
I know that we'd go all the way

If I could have my own way  
I wouldn't need a whole day  
If I could have my own way  
I know that we'd go all the way

I know that we'd go all the way
