

# If You Really Cared

Gabrielle

Thought I understood  
All the things that you told me  
You were going through  
Tried to be there and wanted to pull you through  
And show you how much you're loved

Made a song and dance  
Whenever I would ask you  
Just what was wrong  
You would say something like nothing hon  
All along telling me a lie

If you really cared, cared about me  
Then you would care about, care about us  
If you cared about me, yeah  
You would have cared about love

Felt betrayed, I was giving good loving  
Yet still you strayed, wasn't I good enough  
You were, oh, so sweet  
I guess it was your sweetness that blinded me

If you really cared, cared about me  
Then you would care about, care about us  
If you cared about me, yeah  
You would have cared about love

If you cared you would be there for me  
You wouldn't have left me feeling lonely  
If you really cared then you would have cared about us  
Cared about love

Said you cared, now you're asking for forgiveness  
It's much too late, I don't want you near  
If you cared about me  
Then you would have cared about love

If you really cared, cared about me  
Then you wouldn't have hurt me as you did  
If you cared about me  
Then you would have cared about love

If you really cared, cared about me  
Then you wouldn't have hurt me as you did  
If you cared about me  
Then you would have cared about love

When you really cared, cared about me  
Then you wouldn't have hurt me as you did  
If you cared about me  
Then you would have cared about love
