

Love Me Like You Do

Gabrielle

I know I'm hard to understand
But I'm hoping you can see this through
I may not give away too much
But with you the words I say are true

Don't think you know but in my past
Love and happiness had me running scared
Some things I say and do may confuse you
Can you handle it

R: Come on and love me
Love me like you do
Love me like it's true
Baby love me
All I ask is love me
Love me like you should
Love me like you do
If you hold on my love will come true
That's all you have to do

Don't think that it's a one may love
And I'm gonna make you look a fool
An babe I find it hard to trust
But I hope I can rely on you

Don't think you know but in my past
Love and happiness had me running scared
Some things I say and do may confuse you
Can you handle it

R:

Don't think you know
But in my past
Love and happiness
Had me running scared
Some things I say and do
May confuse you
Can you handle it

R:
