

# Say Goodbye

Gabrielle

Say goodbye (3x)

For a long, long time we lived in denial  
Couldn't face the truth that is why we try  
Holding onto love but love already died  
It's so hard just letting go

It's hard to walk away when you've been close  
Leaving everything behind all that you know  
And I'm just not sure of what my future holds  
It's so hard just letting go

How can two people once so full of love get lost  
I guess there's indication that their love has gone  
Losing all the reasons to carry on  
How can two people once so full of fight decide  
Wake up in the morning want to call it time  
Say there's no way back and then to draw the line

We agreed that there would be no bitterness  
With hands upon our hearts we left with no regret  
We took our love as far as it would go  
It's so hard to walk alone

How can two people once so full of love get lost  
I guess there's indication that their love has gone  
Losing all the reasons to carry on  
How can two people once so full of fight decide  
Wake up in the morning want to call it time  
Say there's no way back and then to draw the line
