

# Stay The Same

Gabrielle

We should know by now that life is not the same,  
I have watched you try to cover your mistakes,  
I don't care about what the people say,  
But it's down to me, I know my mind,  
And I will find my way...

And I don't regret the time we spent,  
My time with you: it was not in vain...

And I wonder why,  
Where it all went wrong,  
And how you lost your home,  
You're the reason that I'm gone,  
And I wonder how,  
How you came to change,  
And how you lost your way,  
My life's just stayed the same,  
Stay the same...

Couldn't spend my life, always trying to please you,  
The time had come for change,  
That's when I realised that I really did need you,  
And I knew right then I wouldn't take the pain...

And I don't regret the time we spent,  
My time with you: it was not in vain...

And I wonder why,  
Where it all went wrong,  
And how you lost your home,  
You're the reason that I'm gone,  
And I wonder how,  
How you came to change,  
And how you lost your way,  
My life's just stayed the same,  
Stay the same...

And I don't regret the time we spent,  
My time with you: it was not in vain...

And I wonder why,  
Where it all went wrong,  
And how you lost your home,  
You're the reason that I'm gone,  
And I wonder how,  
How you came to change,  
And how you lost your way,  
My life's just stayed the same,  
And I wonder why,  
Where it all went wrong,  
And how you lost your home,  
You're the reason that I'm gone,  
And I wonder how,  
How you came to change,  
And how you lost your way,  
My life's just stayed the same,  
Stay the same...
