

## Wiser

Gabrielle

Thirteen years and so many days  
Now you tell me that you're going away  
And it's hard, so hard  
You were always looking out for yourself  
Didn't give a damn for no one else  
So I learned, I learned as I got burned

R: 'Cos all you left me  
Was much wiser  
And I'll get by without you  
Now that I'm wiser

I always did what you want  
Around you I never felt so strong  
I was weak, so weak  
Looking back to what I thought we had  
Can't believe I didn't see the cracks  
I was blind, so blind

R:

I used to see you in a different light  
What I see of you  
I just don't like anymore, no more  
I always thought that I needed you  
Turns out it just wasn't true  
You needed me more than I did you

R: 'Cos all you left me  
Was much wiser  
And I'll get by without you  
Now that I'm wiser  
The worst you have done  
Is made me wiser  
I'll get by without you  
Now that I am wiser
