

# Always On My Mind

Gabry Ponte

The world is different now my little bird is gone i've seen it  
flying away yesterday

The silence is crying out loud i hear it's voice around i know  
we'll meet again

i'll never forget you, no way.

You are always on my mind now it's time to live no, i can't fo  
give so many times you lied you were always on my mind. now it'  
s time to live no i can't forgive so many times you lied you we  
re always on my mind.

My days are harder now my dearest love is gone i've seen him g  
oing away yesterday.

The silence is crying out loud i hear it's voice around i know  
we'll meet again

i'll never forget you, no way
