

Memories

Gabry Ponte

Memories in my dreams
Memories of what I've seen
Memories every time
I hear that magic melody

Memories of days gone by
Memories of you and I
Memories every night
Until there's nothing in my mind
Memories...

Life is running faster
nothing brings you back to the
best of what's behind us
Just fragments of you
You can just remember
Feelings that you could live just once
somebody is left in your mind

Memories in my dreams
Memories of what I've seen
Memories every time
I hear that magic melody

Memories of days gone by
Memories of you and I
Memories every night
Until there's nothing in my mind
Memories...

Life is running faster
Nothing brings you back to the
best of what's behind us
Just fragments of you
You can just remember
feelings that you could live just once
somebody is left in your mind

Memories in my dreams
Memories of what I've seen
Memories every time
I hear that magic melody

Memories of days gone by
Memories of you and I
Memories every night
Until there's nothing in my mind
