

## December Love Song

GACKT

The evening lights, coloring the nights busy avenues,  
down the street brings back memories of you.

Now I am watching, as lovers pass me by,  
finding your shadows, in the views of my eyes

Now I am here, all alone  
Remembering the time we used to laugh together  
in the fall of the cold  
I still think of you,  
Wondering if you feel the same

Save, your smile for me,  
even although you cry for me  
Remember me and love me always

Love, and smile for me,  
Hold on to all that we had  
remembering and love me again

I'm so depressed living , a quiet life now,  
There is no one here, in which to hold hands,  
or protect me from the cold  
Feeling like this loneliness will tear me apart  
I am waiting and looking for you voice  
To get me out of the dark

Snowflakes fall like the tears that running down my face  
I wanna hold you just one more time  
I think of you night and day  
Wondering if you feel the same

Being in the silence of the night  
Fall into my arms and I'll hold you so tight  
My kiss will guide our missing hearts  
and tell me you'll love again

Save, your smile for me,  
even although you cry for me  
remember me and love me always

Love, and smile for me,  
Hold on to all that we had  
remembering and love me again
