

gin no yume, tsumugu ame no shirabe
kimi no ushiro ni tatsu no wa dare?
mou ichido, meguriau tame me o tojita

A silver dream, the sweetly spun sound of the rain
Who's that standing behind you?
Once more, close your eyes so we can meet

yaketa mune wa kusari ni tsunagare
saketa kizu wa taiyou ni dakare
karada o tsukisasu hikari to kage, mitsumeteiru...

My burned out heart is bound in chains
My torn wounds are embraced by the sun
The light and shadows piercing my body, watching...

"mada, anata wa kawarenai kara... saa, me o tojite"

"Still, you can't change... so, close your eyes"

kimi ga tadoritsukeru toki made matenai
yamanai de owari o tsugeru ame
nakanai de egakidasareta negai ga kanau made

I can't wait until you find your way here
Don't stop, the rain will tell you when it's over
Don't cry, until the wishes you've drawn out have been granted

"mada, watashi wa hanarenai kara... saa, dakishimete"

"Still, I can't let go... so, hold me tight"

"sono inori wa kanawanai kara... saa, te o nobashite"

"That wish won't be granted... so, raise your hands"

taiyou ni yakare	kono mi o kowashite
itami to wakare	toki o koroshite
taiyou ni kogare	kono mi o makasete
kodoku ni dakareta	boku o koroshite

Burned by the sun	break my body
Pain and separation	kill time
Yearning for the sun	entrust my body
Embraced by loneliness	kill me
