

## Black Light

Gadget

No need to hesitate  
No one's here to save you from the end  
Just ignore the facts  
The piles of shit - all that remains

Walk into the light  
Since no one ever did  
Death - coming due  
To fix your wounds and comfort you

The final decision  
To accept your life's recession  
No need to hesitate  
It's just here to save you from the end

Walk into the light  
Save yourself since no one ever did  
Death - Coming through  
The final light that comforts you

Forward  
Onward  
Homewards
