

## Let the Mayhem Begin

Gadget

Can't you see the end is near  
Isn't this what we all feared  
A new dawn will rise with blood and despair

This is the final war  
Is it the final call?  
So let the mayhem begin  
A war no one can win  
Look ahead there closing in  
There's no room for despair  
This is the final war  
Is it the final call?

Can't you see the end is near?  
Isn't this what we all feared?  
A new dawn will rise with blood and despair
