

Fire in the brain
Do you feel the pain
Eating while you're alive

I've been looking for
Another kind of true
Searching reality
Not this insanity

Someone took me in
Another kicked me out so fast
Something doesn't smell good so sentimental

Save our spirit Messiah
Save our planet
Save the faith
Save our spirit Messiah
We are waiting Messiah
We are praying
We're repenting
We are waiting Messiah

One of these days are turning black
And all the things are coming back
Oh what we've done!!!

Fire in the brain
do you feel the pain
It's too late to be scared
so sentimental

I'm not a Messiah
I'm natural disaster
