

# My School

## Galactic Cowboys

My mind is like a video of memories, but I don't know if I'm crazy  
In the classroom I would pray I wouldn't have to read that day,  
I was lazy  
People thought but didn't say, I turn the page of red and gray.  
..I'm bolder  
The golden boys who got the girls are going bald with no more curls, they're older  
Well, the moon is full tonight and I'm going back, tell me where you are tonight  
'Cause I'm going back to my school, going back to my school

Teachers smirked but never knew what I had inside and when I'd grow I'd show them  
But I realized the other day it wouldn't matter what they'd say, I'd know when  
Well, the moon is full tonight and I'm going back, tell me where you are tonight  
'Cause I'm going back to my school, going back to my school

You locked me up inside, my feelings I denied  
Well, the moon is full tonight and I'm going back, tell me where you are tonight  
'Cause I'm going back to my school, going back to my school  
Tell me where you are, oh, tell me where you are tonight  
Oh, tell me where you are tonight?
