## **Galactic Cowboys**

```
Unsettled, angst driven, disaffected generation
Hastened by the joy of laughter
Fall away from ever after
Something's happening there
Something's happening there
Something's happening there
Unstill and borrowed
The more you know, the more you sorrow
Abandoning the search for meaning
If every failure amounts to nothing
Something's happening there
My My, Hey Hey...
The kids have found a place to play
Geeks and freaks and creeps and paupers
Fall away from what you offer
Something's happening there
Something's happening there...yeah!
```
