

Sex In The Underworld

Galadriel

Show me your secret diamonds now in the darkness of the
night
We're lost somewhere in the deep of world where's no
sun and no moonlight
Feel me deep, feel me free in your sanctuary of erotic
dreams and cries
Planet Earth's burned down but your eyes remind me the
rise of the morning sun

I feel your burning sweat, be mine
I hear your silent sighs
...Sex In The Underworld
We're filling us with new age love
We are burning in our sins...
... Sex In The Underworld !

Dark noise of machines in the underworld bring us
background for our dreams
The touch of your lashes like of butterfly and your
fragile tears drops your
skin
I love you in fire and ecstasy, you bring me the pain,
you bring me delight
Nothing to see, only your body screams, fill me deep,
fill me with the rain
inside
