

The Autumn Leaves

Galadriel

I enter your realm, (the) snowing leaves casts over (the) ground

there sounds the whisper of semi-naked crowns

your inner spirit protects me against the storms of outer world

when i lie among (the) gold leaves, that ancient magic penetrates me

i became a part of you, my naked body's covered by the bark

my wish fill moment, everything i love is all around

i hear the forest melodies of dark strong beings

first snow falls into my crown (and) i am prepared for the change .

THE MIST SHROUDED THE VALLEYS

THE WATER IN LAKES STANDS GRIEVOUSLY

THE GREYLAGS ALREADY FOUND

THE SALVATION IN SOUTH - THE FALL IS OVER!

I'm the breeze in the wind, the frozen look and sigh

of winter's coldest dream, I'm (the) dance of crystals

see what grace brings my joy, the icy flowers bloom

the frozen waterfalls, the shine and spell of moon
