

# Dancin' To The Sound Of A Broken Heart

Galantis

Heartbeat, heartbeat, heartbeat, heartbeat...

Do you remember when you and I were young  
We'd always hold each other down 'til we were numb  
Bear with the madness, us against the world  
And every heartbeat felt like this is one way to stop

With every heartbeat  
With every heartbeat  
With every heartbeat  
With every heartbeat  
With every heartbeat

We were dancing to the sound of a broken heart

I remember climbing in the dark  
We were dancing to the sound of a broken heart  
Bear with the madness, us against the world  
And every heartbeat felt like this is one way to stop

We were dancing to the sound of a broken heart  
We were dancing to the sound of a broken heart

With every heartbeat  
With every heartbeat  
With every heartbeat  
With every heartbeat  
With every heartbeat

We were dancing to the sound of a broken heart  
We were dancing to the sound of a broken heart  
We were dancing to the sound of a broken heart  
We were dancing to the sound of a broken heart  
We were dancing to the sound of a broken heart
