

# Kill 'Em With The Love

Galantis

It's in the whispers of biology  
It's in my heart, it's in my soul  
It's in the make believe  
Of geometry  
It's in the stories I've been told  
We had tried it all  
But it ain't enough  
We can't give up  
Cause you love beyond belief  
I got a message for y'all

Kill 'em with the love  
Strobe lights above  
They can't keep  
Our hearts in jail now  
Kill 'em with the love  
Strobe lights above  
They can't keep our hearts  
In jail now

It's all we know  
It's all we care about  
The common sense is left at home  
It's all we see  
It's all we're hearing now  
A hungry heart is to be whole

We had tried it all  
But it ain't enough  
We can't give up  
Cause you love beyond belief

I got a message for ya'll  
Kill 'em with the love  
Strobe lights above  
They can't keep our hearts  
In jail now  
Can't keep [repeats]  
They can't keep our hearts  
In jail now  
[x4]  
(Kill 'em with the love  
Strobe lights above)
