## Kill 'Em With The Love

It's in the whispers of biology
It's in my heart, it's in my soul
It's in the make believe
Of geometry
It's in the stories I've been told
We had tried it all
But it ain't enough
We can't give up
Cause you love beyond belief
I got a message for y'all

Kill 'em with the love Strobe lights above They can't keep Our hearts in jail now Kill 'em with the love Strobe lights above They can't keep our hearts In jail now

It's all we know It's all we care about The common sense is left at home It's all we see It's all we're hearing now A hungry heart is to be whole

We had tried it all But it ain't enough We can't give up Cause you love beyond belief

I got a message for ya'll Kill 'em with the love Strobe lights above They can't keep our hearts In jail now Can't keep [repeats] They can't keep our hearts In jail now [x4] (Kill 'em with the love Strobe lights above) Galantis
