Don't Let Our Youth Go To Waste

Galaxie 500

I need to walk by the flowers, with someone who can share my fa ce and it looks like no one can take your place And I could bleed in sympathy with you On those days And I could drink up everything you have Don't let it go to waste

I could give you memories To rival Berlin in the Thirties I understand your dating bar ways And I could bleed in sympathy with you On those days And I could drink up everything you have Don't let it go to waste

Say something warm, say something nice I can't stand to see you when you're cold Nor can I stand being out of your life And I could bleed in sympathy with you On those days And I could drink up everything you have
