

Riders of the north

Gallows End

Under the stars in a foreign land
The sound of hooves breaks the still
Look to the sky, follow the ravens flight
He will lead us on our way

Here we come, riders of the north
And by our side death awaits
To all of those who dare to stand in our way
We are all warriors from the north
A mighty legion from below
We'll steal your heart and soul
In the name of the fallen one

Rain starts falling on the frozen ground
Covering us in the mist
Wolfs howl, it's a sign of prey
Soon the war will begin

"Lo there do I see my father
Lo there do I see my mother, and my sisters and my brothers
Lo there do I see the line of my people, back to the beginning
They do call to me, they bid me take my place among them
In the halls of Valhalla, where the brave may live
Forever"

Side by side we await the call
To arms, for battle, prepare
By sword and shield we will conquer all
And tame the world by our will
