

# Sign Of Revolution

Galneryus

Now it's the time, take hold of the flag  
Liberty is calling you  
Your heart is beating so fast  
Breaking the dark, we gather tonight  
The passion will make you take your way  
Now ready to fight

Sail away, across the sea of madness  
The hardness of the burning steel is by my side

Raising your hand, take hold of the flag  
Even if I will lose my life, you don't stop your fight  
Under command, we gather tonight  
The faith of the steel  
We pray to bring near the new legend

Sail away, across the sea of madness  
The hardness of the burning steel is by my side  
Follow on the sign

In the holy night  
We got a sign of revolution  
Passing through the night  
The vision is like the invitation  
Take the force to tight  
We got a sign of revolution  
Now you take the prime time

In the holy night  
We got a sign of revolution  
Passing through the night  
The vision is like the invitation  
Take the force to tight  
We got a sign of revolution  
We'll win through in this game

We just follow the sign  
We want to know what's the end of time
