

## A While in Dreamland

Gamma Ray

I don't mind  
I don't mind at all  
I don't mind to dream a while  
I don't mind at all  
Every night I'm only waiting,  
For the bird of dreams in me  
Take me on your wings and guide me  
Just take me on a journey far away  
I don't mind to fly away to dreamland  
The easy way out of a world so cold  
I don't mind to say goodbye to all I see around  
Only for a while  
Out in the dreamworld there's a fortune  
It's only waiting to be found  
I gaze around and I think this must be magic  
'Cause there's no limit all around  
I don't mind to stay a while in dreamland  
So come on now and take me up with you  
If together we would fly for all eternity  
I would not refuse  
I had it all, I wouldn't mind my friend  
To say goodbye, I'm feeling free  
To stay or leave is just an easy case  
Your wings will always comfort me  
I don't mind to stay a while in dreamland  
A place to leave my sorrows far behind  
Together we will fly through Heaven and through Hell  
To no man's land, no man's world  
Together we will fly for all eternity  
Only you and me  
Only you and me  
On our way to our land of the free...
