

## Fire Below

Gamma Ray

Lead us not into temptation as we grow in fear  
Free your mind from all frustrations as they're drawing near  
Take your time, live in sin, choose your alibis  
Work all day, die in pain, you're a sacrifice  
They're gonna send you down to hell  
And put your body on a shelf  
This is the island of damnation,  
Where all your dreams are gonna fall  
Your mind is screaming for salvation  
And then your world is gonna blow  
Down in the fire below  
Below  
Silent tears are running down my face into the night  
As I'm getting closer to my heart that's full of fright  
They lead me down a steep hell spire  
And burn my body in the fire  
This is the island of damnation,  
Where all your dreams are gonna fall  
My mind is screaming for salvation  
My heart is torn apart and thrown  
Into the fire below  
Below  
They're gonna send you down to hell  
And put your body on a shelf  
This is the island of damnation,  
Where all your dreams are gonna fall  
My mind is screaming for salvation  
My heart is torn apart and thrown  
Into the fire below  
The fire below  
Go down, to nowhere, go down, down  
They take you to Hell  
Into the fire  
They're taking you down  
Into the fire  
The fire below
