

## Pray

Gamma Ray

So here we stand again  
Like dust on mother earth  
And we hide our faces in our dreams

Only emptiness where angels flew - high on golden wings  
And the voice of god has vanished now - lost inside our dreams  
But the only way to go is heaven

All we can do is pray  
In the darkness we stand with the world in our hands  
And we pray  
For a better tomorrow  
We wait

Far beyond the horizon  
There's a sound in the sky  
The voice of glory I hear a silent cry  
When the heroes of yesterday are gone

All we can do is pray  
In the darkness we hide and we wait for the light  
And we pray  
Oh we pray  
Let us pray

I've seen the darkside of the moon in my dreams  
Now I know it ain't a place to live for us all  
All our gods creation is dead an gone  
Now we stand like children all alone forever

All we can do is pray  
Forever and forever and forever more  
For a better tomorrow - we wait

Pray  
There's a light in the dark  
And it's shining so bright on our way  
Still there is hope on our way  
And we pray  
Oh, pray
