

## Send Me a Sign

Gamma Ray

Out of the dark  
He came without a warning  
The guarding light  
I didn't see...  
On a storytellers night  
He spoke his words of wisdom  
The tales he told from far beyond  
That no one understood  
He had the gift of prophecy  
He wove a web of mystery  
A thousand lifes shone gracious in his eyes  
Send me a sign -  
For too long you kept me waiting  
Send me a sign - From the eternal skies  
Send me a sign  
Send me a sign  
He disappeared  
In the early haze of morning  
And with him left his prophecies  
They didn't care...  
All the years that passed away  
He's locked inside my head  
His tales became reality  
The prophecies he said  
He was the chosen one to see  
His words will burn eternally  
It hurts, that no one understands  
Send me a sign -  
For too long you kept me waiting  
Send me a sign - From the eternal skies  
Send me a sign  
Send me a sign  
He had the gift of prophecy  
He gave a guarding light to me  
I know, he set my spirit free  
Send me a sign... Send me a sign  
Send me a sign -  
For too long you kept me waiting  
Send me a sign - To open their eyes  
Send me a sign
