

## Space Eater

Gamma Ray

You know who I am, I show you a land  
Where you can be free, can get your relief.  
Space is all yours, desires come true,  
Love of your life waitin' for you

I got no time for wasting all my day,  
Come on and follow, follow me away.  
Spaceeater - you're losing control  
Spaceeater - and I own your soul  
I'll make you happy, ain't no lie,  
Come eat my space, you're gonna fly.  
Let me control your senses,  
And lose your mind, your worries inside.

I got no time to stand and waste my day,  
Come on and follow, follow me away.  
Spaceeater you're losing control  
Spaceeater and I own your soul

A little bit, a little bit, a little sip, a little hit  
You're drowning in a lusty whirl, be superman or wondergirl.  
Oh, we fly away on supersonic dreams, we ride on universal star  
shine,  
Through space.  
I got no time to stand and waste my day,  
Come on and follow, follow me away.
