

## Time to Break Free

Gamma Ray

Where will you be tomorrow?  
Really I don't care  
I have seen the future, rising everywhere  
Look into the mirror, tell me what you see  
Piece by piece you'll vanish  
Until you disappear!

Now I'm doing what I say  
No more fooling anyway  
Beyond this hell, there is a better life to lead  
You're all undone, emotionless  
It's not the way for me

Now I know there's a better way  
Let my heart ride out for a brighter day  
Now it's time to breathe in the open air  
With a mind so free, anyway  
It's time for a change...  
It's time to break free!

Had enough of fooling, had enough of lies  
Hypocrisy, intriguing, right before my eyes  
Had enough of hound dogs, barking all the time  
I agree with Elvis, you ain't no friend of mine

Apart from this there is a better life I know  
You're all undone, emotionless  
It's time for me to go

Now I know there's a better way  
Let my heart ride out for a brighter day  
Now it's time to breathe in the open air  
With a mind so free, anyway  
It's time for a change...  
It's time to break free!

Now I know there's a better way  
Let my heart fly free towards a better day  
Now it's time to breathe, it's the only way,  
let my mind ride out, anyway...

Now I know, there's a better way  
Let my heart ride out for a better day  
Now it's time to breathe in the open air  
With a mind so free, anyway  
It's time to break free!

It's time to be me, FREE.
