Time to Break Free

Gamma Ray

Where will you be tomorrow? Really I don't care I have seen the future, rising everywhere Look into the mirror, tell me what you see Piece by piece you'll vanish Until you disappear!

Now I'm doing what I say No more fooling anyway Beyond this hell, there is a better life to lead You're all undone, emotionless It's not the way for me

Now I know there's a better way Let my heart ride out for a brighter day Now it's time to breathe in the open air With a mind so free, anyway It's time for a change... It's time to break free!

Had enough of fooling, had enough of lies Hypocrisy, intriguing, right before my eyes Had enough of hound dogs, barking all the time I agree with Elvis, you ain't no friend of mine

Apart from this there is a better life I know You're all undone, emotionless It's time for me to go

Now I know there's a better way Let my heart ride out for a brighter day Now it's time to breathe in the open air With a mind so free, anyway It's time for a change... It's time to break free!

Now I know there's a better way Let my heart fly free towards a better day Now it's time to breathe, it's the only way, let my mind ride out, anyway...

Now I know, there's a better way Let my heart ride out for a better day Now it's time to breathe in the open air With a mind so free, anyway It's time to break free!

It's time to be me, FREE.
