

# I Parade Myself

Gang of Four

Look at me, ain't I fine  
Brand new me, dig my mine  
I parade myself

One on one, I am nouveau  
Here I come, there I go  
I parade myself

Catch my eyes, aren't we a pair  
I'm not shy, touch me there  
I parade myself

I win  
When  
I invent myself again  
I parade myself  
I win  
When  
I make myself again  
I parade myself

Ain't I ripe, what a peach  
Everything is in my reach  
I parade myself

Now I accuse, face to face  
The one to lose this one man race  
I parade myself

I win  
When  
I invent myself again  
I parade myself

I am civilized  
I live wall to wall  
But I ain't shy  
Don't avoid my eyes  
Hid some razor blades  
In the wedding cake  
I walk on by  
Singing bye, bye, bye

I parade  
I parade myself  
Bye, bye, bye  
I parade
