

# Independence

Gang of Four

Like you said when we crawled down from the trees  
We're in transition  
I don't want to remain on the edge  
We must embrace the new conditions  
I'm alright, I'm alright  
Through it's a contradiction  
It's enough but less than I imagined  
I'll get used to this  
A one roomed apartment  
If I fall behind with the rent  
I'll have to borrow from a close friend  
I'm alright, I'm alright  
Through it's a contradiction  
It's enough but less than I imagined  
You always promise more than you can deliver  
Independence ain't dependence  
When you said it gets so cold that we could freeze  
I reconsidered  
I did all I could to be saved  
It looks like I made the wrong decision
