

# The Dark Ride

Gang of Four

I wore out time  
Used up all that should be mine  
Shit faced, watch soaps  
I only laugh at my own jokes

Gunfingered, I pop  
Competitors on gameshow spots  
Lucked out, she wins  
A home to fake orgasms in

Sirens they call to me  
"Come on the dark ride"  
Sirens they call me  
In from the outside

The dark ride, the dark ride  
Sirens call me on the dark ride

Idle, I pray  
Wish me on a holiday  
No sweat, I kneel  
Faking hope until it's real

I drowned the years  
In a honeymooner's tears  
Stranger, here's the proof  
That's me in the photo booth

Sirens they call to me  
"Come on the dark ride"  
Sirens they call me  
In from the outside

The dark ride, the dark ride  
Sirens call me on the dark ride

The dark ride, the dark ride  
Sirens call me on the dark ride

(Unintelligible)  
I'll make your bad times disappear  
Don't need a shrink, I got no fear

I'll make your bad times disappear  
Don't need a shrink, I got no fear  
Fear, fear, fear, fear, fear, fear

The dark ride, the dark ride  
Sirens call me

The dark ride, the dark ride  
Sirens call me, sirens call me

The dark ride, the dark ride  
Sirens call me, sirens call me

The dark ride, the dark ride

Sirens call me on the dark ride
